If you want to search you can search by inserting the 5 alphanumerical symbols in the bracket [] after the section in the "Ctrl + F" menu. It's as easy as the other Guide searches. Also searching section names won't work at all sometimes.

1. Information [I1256]
2. Version Information [V12I5]
2. Contents [C111T]
4. Items [EL198]
5. Credit [CRA13]
6. Copyright [CO67P]

Due to the fact that I cannot fit the whole list in one table I have split it into. I will soon start converting it into a easy to read/use look.

To Search through it please type in the name you are looking for in the Ctrl+F Search Menu.
