I. Version History

Version 1.0- 08/07/04: This guide was started so late after the game, because of the discussion on GameFAQs on how a complete booster pack FAQ was needed on 8/3/04. Completed 8/17/04. Only 10 Days!? Wow!!

Version 1.1- 08/25/04: I have started verify the packs after some time off. I have started with Mystical Elf because Didron has volunteered to verify the Dark Magician pack. Thanks a bunch! Thinking about adding a valuable cards section.

II. Frequently Asked Questions

I have yet to receive any questions from others and they will be updated as soon as I receive some.

IIA. Frequently Desired Cards

These cards are the most asked about as per discussion in the GameFAQs Message Board. Hopefully I will get a lot of e-mails and put some more cards on the list than are already here. If you have a card that you would like to see on the list, please e-mail me and I will try to get it on here.

Ok, Now this is why most of you are here, so let's get on with the show. The cards are broken up by rarity, so the top part of the pack contains the rare selections of that pack, those cards show up as multi-colored upon selection. Next to the Rare or Normal Section is a number, which contains the total number of different cards in that pack. Cards that have a (V) next to them are cards that were contributed by fellow GameFAQers.

VI. Thanks for Contributions

This section is soon to be filled with people as soon as someone recognizes that I am not perfect and therefore have some flaws in this guide. I will continue to check on these packs as I am sure I have not completed it,

but I am glad with the content thus far. I look forward to some e-mails.

Thanks to:

- 1) Didron for Nimble Momonga in the TBEWD pack.
- 2) Didron for being the first to volunteer to verify a pack!

=====

V. Upcoming Updates

In this section will be a simple checklist of the booster packs that I have as of yet double checked with this guide. I have started this section along with a very helpful volunteer, Didron. If you wish to help, you must e-mail me in order to be assigned a pack. I have verified using these rules as a standard:

In order to verify:

- 1) Must compile separate list, apart from my guide(i.e. start from scratch)
- 2) Verification requires atleast a minimum of:

Cards in Pack	Verification Requirement:
0-40	100 times chosen
41-50	120 times chosen
51-60	200 times chosen
60-80	300 times chosen
80+	500 times chosen

- 3) If a new card is found in your verification you must choose the pack 10 more times past the last new card.
- 4) Remember, verification is a stamp of approval by you to all of GameFAQs, so be 99.9% sure that a card not on the list won't show up. Don't worry too much if you miss one though, as it can be easily fixed (It'll just look bad).
- 5) I really don't recommend doing a verification with help of a emulator. Must own the original cartridge for this!
- 6) List must be submitted in similar format as my FAQ.
- 7) I reserve the right to reverify a pack. Not all verifications can be done by a single person.
- 8) I will not verify the Yellow Millenium Eye pack as it would simply take too long, but if some crazy person wants to verify this, by all means.

Booster packs needed to be double checked:

1. Dark Magician	Start off unlocked-Didron
2. Mystical Elf	Start off unlocked-Sabin01-8/25/04
3. Red Eyes B. Dragon	Start off unlocked
4. Harpie Lady	Start off unlocked
5. Gate Gaurdian	Start off unlocked
6. Great Moth	Start off unlocked
